BOARD REPORT # 01

APPROVED

VIA: CALIFORNIA VIRTUAL ACADEMY STAFF

December 11, 2024

SUBJECT: Fiscal Year 2023-24 Audit Certification

PROPOSAL:

It is proposed that the Governing Board of California Virtual Academy at San Diego approve the attached audit certification.

BACKGROUND:

Each board member was provided a copy of the fiscal year 2023-24 annual audit conducted by Green Hasson and Janks LLP for their review. The result of the audit was fair, and the independent auditors have issued their unmodified opinion on the school's financial statements. The financial statements present fairly, in all material aspects, the financial position of the Organization as of June 30, 2024.

Green Hasson and Janks LLP has identified a state compliance finding related to California Virtual Academy at San Diego's nonclassroom-based determination of funding request submitted to CDE in February 2023. The School inadvertently omitted \$3,157 of Instruction and Related Services expenses from Section II of the funding determination form (FDF); the details of which are further discussed in the attached audited financial statements. The attached certification verifies for the public record that the Board has received the audit report.

BUDGET IMPLICATIONS:

There are no budget implications.

RECOMMENDATIONS:

It is recommended that the Governing Board approve the certification as presented.

RESPECTFULLY SUBMITTED

IN ANY FORM WITHOUT PERMISSION

To the Board of Directors
California Virtual Academy @ San Diego

We have audited the financial statements of California Virtual Academy @ San Diego (the School) as of and for the year ended June 30, 2024, and have issued our report thereon dated December 11, 2024. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated April 19, 2024, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the School solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms have complied with all relevant ethical requirements regarding independence.

Significant Risks Identified

We have identified the following significant risks:

- Risk of improper revenue recognition through misallocation of costs to cost reimbursement contracts. This is a presumed significant risk under U.S. generally accepted auditing standards (U.S. GAAS).
- Risk of management override of controls, which is a presumed significant risk under U.S. GAAS.

Qualitative Aspects of the School's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the School is included in Note 2 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during June 30, 2024. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates and related disclosures are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. There were no such significant accounting estimates affecting the financial statements.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the School's financial statements relate to the functional allocation of expenses, related party transactions, and state compliance report.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. The attached schedule, **Proposed Adjusting Journal Entries**, summarizes uncorrected financial statement misstatements whose effects in the current and prior periods, as determined by management, are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. No such misstatements were identified.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the School's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the management representation letter dated December 11, 2024.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings or Issues

In the normal course of our professional association with the School, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating conditions affecting the School, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the School's auditors.

This report is intended solely for the information and use of the Boards of Directors and management of the School and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
California Virtual Academy @ San Diego

Opinion

We have audited the financial statements of California Virtual Academy @ San Diego (A Non-Profit Organization) (the School), which comprise the statement of financial position as of June 30, 2024, the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the School as of June 30, 2024, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the School and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of, average daily attendance, instructional time, reconciliation of annual financial and budget report with audited financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by the audit requirements of *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS and *Government Auditing Standards*. In our opinion, the supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information. The other information comprises the charter school organization structure but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2024, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

NOTE 1 - ORGANIZATION

California Virtual Academy @ San Diego (the School) is a non-profit public benefit corporation, which is part of California Virtual Academies (CAVA). The School was founded in 2002. The School is a virtual public charter school that offers non-classroom based classes to students. CAVA programs blend innovative new instructional technology with a traditional curriculum for students all across California. The School has chosen K12 California LLC (K12) as its sole curriculum provider. K12 provides support services as well as technology services to the School. The School is funded principally through the State of California public education monies received through the California Department of Education and its chartering district, the Spencer Valley School District (the District) in San Diego County. The School received majority of its funding from a uniform base grant through the Local Control Funding Formula (LCFF).

In addition to this base grant, the School receives Supplemental grants through LCFF, which is based on the number of targeted pupils that are classified as English learners, socio-economically disadvantaged pupils, and foster youth (unduplicated pupils). The School uses Supplemental grants to help improve or increase services principally directed towards, and effective in meeting, the School's goals for unduplicated pupils.

The School receives other state and federal funds to provide additional programs and services to students based on certain demographics.

- Special Education funds to help ensure a free appropriate public education for eligible students with disabilities, as well as special education and related services for those students.
- Mental Health funds to deliver educational related mental health services to students with individualized education programs (IEPs), including out-of-home residential services students with development disorders and emotional and behavioral challenges.
- Title I, Part A funds to support effective, evidence-based educational strategies that close the achievement gap and enable the students to meet the state's challenging academic standards.
- Title II, Part A funds to increase the academic achievement of all students by improving teacher and principal quality through professional development and other activities, as well as providing socio-economically disadvantaged students greater access to effective teachers, principals, and other school leaders.
- Coronavirus Response and Relief Supplemental Appropriations Act, 2022 (CRRSA Act) Elementary and Secondary School Emergency Relief (ESSER II) funds to be used for the same set of services covered under ESSER I and add activities such as addressing learning loss, preparing schools for reopening, and testing, repairing, and upgrading projects to improve air quality in school buildings.

NOTE 1 – ORGANIZATION (continued)

- The American Rescue Plan Act of 2022 (ARP Act) Elementary and Secondary School Emergency Relief (ESSER III) funds to be used for the same set of services covered under ESSER I and II and add activities such as developing strategies and implementing public health protocols, including, to the greatest extent practicable, policies in line with guidance from the Center for Disease Control for the reopening and operation of school facilities to maintain the health and safety of students, educators, and other staff.

The District has granted the charter to the School through June 30, 2025, subject to amendment and renewal. The School's principal office is located in Simi Valley, California.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) BASIS OF PRESENTATION

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) NET ASSETS

Net assets, revenues, gains, and losses are presented based on the existence or absence of donor-imposed restrictions. Accordingly, all net assets and changes therein are classified and reported as follows:

- **Net Assets Without Donor Restrictions:** Net assets available for use in general operations and not subject to donor-imposed restrictions.
- **Net Assets With Donor Restrictions:** Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that the resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. The School had no net assets with donor restrictions as of June 30, 2024.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) CASH

The School maintains its cash in bank accounts which, at times, may exceed federally insured limits. The School has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk.

As of June 30, 2024, the District holds \$8,098,845 of the School's cash in a bank checking account. The School has rights to such cash balances and may request to draw down on the balances at any time.

(d) MANAGEMENT'S USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

(e) DUE FROM (TO) FEDERAL, STATE AND LOCAL GOVERNMENTS

Due from (to) federal, state and local governments are recorded based on amounts to be primarily awarded from the California Department of Education which are, in turn, based on the average daily attendance (ADA) of students. The amounts to be awarded are subject to change based on the availability of funds from the State of California. As a result, differences may occur when accruals are estimated because the exact amounts are not available at the time of the accrual. Any changes are recorded in the period that they are estimable.

The carrying value of due from federal, state and local governments, net of the allowance for doubtful accounts, represents their estimated net realizable value. The allowance for doubtful accounts is estimated based on historical collection trends, the age of outstanding amounts due from federal, state and local governments and existing economic conditions. If events or changes in circumstances indicate that specific due from federal, state and local government balances may be impaired, further consideration is given to the collectability of those balances and the allowance is adjusted accordingly. Past due balances are written off when internal collection efforts have been unsuccessful in collecting the amount due. As of June 30, 2024, the School has not established any allowance for doubtful accounts.

Due to federal, state and local governments represent amounts to be returned to the funding agency.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) INCOME TAXES

The School is exempt from taxation under Internal Revenue Code Section 501(c)(3) and California Revenue and Taxation Code Section 23701(d). There is no unrelated taxable income and, accordingly, no provision for income taxes has been recorded.

In accordance with the Financial Accounting Standards Board's Accounting Standards Codification Topic No. 740, *Uncertainty in Income Taxes*, the School recognizes the impact of tax positions in the financial statements if that position is more likely than not to be sustained on audit, based on the technical merits of the position. During the year ended June 30, 2024, the School performed an evaluation of uncertain tax positions and did not note any matters that would require recognition in the financial statements or which might have an effect on its tax-exempt status.

(g) REVENUE RECOGNITION

The School recognizes revenue when cash, other assets or an unconditional promise to give are received. The School reports unconditional promises as restricted support if they are received with donor stipulations that limit the use of the donated assets. Conditional promises to give, that is, those with a measurable performance or other barrier and a right of return, are not recognized until the conditions on which they depend have been met.

Revenue from government contracts and grants may be conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Such grants are generally considered nonreciprocal transactions restricted by the awarding agencies for certain purposes.

Amounts received are recognized as revenue when the School has satisfied the specific performance requirements, if any, or incurred expenditures in compliance with specific contract or grant provisions, if applicable. The School has elected to adopt a policy whereby donor-restricted grants, whose restrictions are met in the same reporting period, are recognized as revenue without donor restrictions. Amounts received prior to incurring qualifying expenditures or fulfilling the specific performance obligations are reported as deferred revenue in the statement of financial position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) FUNCTIONAL ALLOCATION OF EXPENSES

Costs of providing the School's programs and other activities have been presented in the statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited by a method that best measures the relative degree of benefit.

(i) SUBSEQUENT EVENTS

The School evaluated events and transactions occurring subsequent to the statement of financial position date of June 30, 2024, for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through December 11, 2024, the date these financial statements were available to be issued. No such material events or transactions were noted to have occurred.

NOTE 3 - COMMITMENTS AND CONTINGENCIES

(a) CONTRACTS

The School's grants and contracts are subject to inspection and audit by the appropriate governmental funding agency. The purpose is to determine whether program funds were used in accordance with their respective guidelines and regulations. The potential exists for disallowance of previously funded program costs.

(b) LEGAL PROCEEDINGS

In the ordinary course of conducting its business, the School becomes involved in various claims or proceedings. Some of these proceedings may result in judgments being assessed against the School which, from time to time, may have an impact on changes in net assets. The School does not believe that these proceedings, individually or in the aggregate, are material to the accompanying financial statements.

NOTE 4 - EMPLOYEE BENEFIT PLAN

Multiple-employer Defined Benefit Pension Plan

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. The risks of participating in this multiple-employer defined benefit pension plan are different from single-employer plans because: (a) assets contributed to the multiple-employer plan by one employer may be used to provide benefits to employees of other participating employers, (b) the required member, employer, and state contribution rates are set by the California Legislature, and (c) if the School chooses to stop participating in the multiple-employer plan, it may be required to pay a withdrawal liability to the plan. The School has no plans to withdraw from this multiple-employer plan.

State Teachers' Retirement System (STRS)

Plan Description

Certificated employees are members of the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by the STRS. The School contributes to the STRS and the plan provides retirement, disability and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. According to the most recently available Comprehensive Annual Financial Report and Actuarial Valuation Report for the year ended June 30, 2023, total STRS plan net assets were \$317 billion, the total actuarial present value of accumulated plan benefits was \$455 billion, contributions from all employers totaled \$7.8 billion, and the plan was 76% funded. The School did not contribute more than 5% of the total contributions to the plan. Copies of the STRS annual financial reports may be obtained from STRS, 7667 Folsom Boulevard, Sacramento, CA 95826 and www.calstrs.com.

Funding Policy

The School reports all applicable information to STRS through the District. Active plan members hired before January 1, 2013 are required to contribute 10.25% of their salary and those hired after are required to contribute 10.205% of their salary. The School is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The School is required to contribute 19.10% of annual payroll for active plan members for STRS during the year ended June 30, 2024.

The School's contributions to STRS for each of the last three years were as follows:

	STRS Required Contribution	STRS Percent Contributed
Year Ending June 30		
2022	\$ 1,731,659	100%
2023	2,301,122	100%
2024	2,711,839	100%

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - RELATED PARTY TRANSACTIONS

- (a) The District charges an amount equal to actual costs of supervisory oversight by the District not to exceed 1% of the School's LCFF revenues, unless the School is able to obtain substantially rent-free facilities from the District, in which case the District can increase charges up to 3% of the School's revenues. During the year ended June 30, 2024, the District did not provide rent-free facilities to the School, and therefore charged the School 1% for supervisory oversight, administrative and other services, in accordance with the amended memorandum of understanding agreement (MOU) between the School and the District. The total expense incurred for such supervisory oversight, administrative and other services for the year ended June 30, 2024 was \$404,915.
- (b) The School engages in transactions with the other public charter schools including CAVA, Insight and iQ schools. Common expenses such as offices expenses and utilities are shared among the CAVA, Insight and iQ schools. The School also shares in teacher expenses for teachers who perform services among multiple schools among the CAVA, Insight and iQ Schools. All inter-school receivables and liabilities have been assumed by K12. The net receivable as of June 30, 2024 included in Due from K12 California LLC totaled \$2,089,435.
- (c) K12 charges the School 13% of all revenues received from charter school state funding for support services and 7% for technology services. The total expense incurred for these transactions for the year ended June 30, 2024 totaled \$10,375,670. K12 also provides curriculum and instructional materials to the School. These transactions amounted to \$9,998,997 for the year ended June 30, 2024.

In addition, K12 charges monthly fees for office expenses and the lease of instructional computers for students. These instructional computer lease expenses are under a month-to-month arrangements and totaled \$2,329,997 for the year ended June 30, 2024.

Total fees for office and lease expenses for the year ended June 30, 2024 were \$2,427,344.

NOTES TO FINANCIAL STATEMENTS
June 30, 2024

NOTE 5 - RELATED PARTY TRANSACTIONS (continued)

(c) (continued)

Under the service agreement between K12 and the School, K12 has committed to provide credits (K12 invoice credits) to be applied to K12 invoices up to the amount necessary to assure the School does not end a fiscal year with a deficit. K12 and the School have established a fee structure that does not bind the parties together beyond an ordinary customer-vendor relationship by agreeing that all K12 invoice credits accumulated through 2016 per the Settlement Agreement and Final Judgement with the State of California, acting through the California Department of Justice, be expunged at the end of every year, and that no K12 invoice credits shall be permanently carried over between fiscal years. In the event the School receives, in a subsequent fiscal year, revenue attributable to a fiscal year in which K12 has already forgiven K12 invoice credits, such subsequently received funds may be used to compensate K12 for fees incurred under this agreement in such earlier fiscal year. The service agreement also covers various definitions, levels of authority, approvals, and various fiscal responsibilities between K12 and the School. The term of the service agreement between the two parties expires on June 30, 2029.

There were no K12 Invoice credits provided by K12 during the fiscal year ended June 30, 2024. Total charges from K12 relating to the above noted expenses amounted to \$22,802,011 during the fiscal year ended June 30, 2024.

There was \$779,216 due from K12 at June 30, 2024.

NOTE 6 - EMPLOYEE UNION CONTRACT

Effective July 1, 2017, the School, along with all other schools within the CAVA network, entered into a collective bargaining agreement with California Virtual Educators United (CVEU) to allow all eligible certificated employees of CAVA schools to participate in CVEU's Union, which provides for specified benefits including (but not limited to) specific pay rates and benefits. All Union dues are deducted by the School from participating employees' payroll and remitted to CVEU, subject to the payment terms specified in the collective bargaining agreement. All certificated employees are allocated to each CAVA school based on their proportion of student headcount relative to all CAVA schools. Since headcount totals, and the resulting certificated employees' payroll and benefits allocations can vary each month, the percentage of the School's labor force covered by the collective bargaining agreement is presented in an aggregate level for all schools within the CAVA network. Approximately 55% of the CAVA network's labor force is covered by the collective bargaining agreement, which expires on June 30, 2026.

NOTES TO FINANCIAL STATEMENTS

NOTE 7 - LIQUIDITY AND AVAILABILITY OF FINANCIAL RESOURCES

The total financial assets held by the School at June 30, 2024 and the amounts of those financial assets that could be made available for general expenditures within one year of the date of the statement of financial position are summarized in the following table:

Financial Assets at June 30, 2024	
Cash	\$ 14,558,391
Due from Federal, State and Local Governments	1,280,019
Due from K12 California LLC	<u>799,216</u>
FINANCIAL ASSETS AVAILABLE TO MEET GENERAL EXPENDITURES WITHIN ONE YEAR	<u>\$ 16,637,626</u>

The School regularly monitors liquidity required to meet its operating needs and other contractual commitments while also striving to maximize the investment of its available funds. As part of the School's liquidity management, the School structures its financial assets to be available and liquid as its general expenditures, liabilities and other obligations become due. Additionally as noted in Note 5(c), under the service agreement between K12 and the School, K12 has committed to provide K12 invoice credits to be applied to K12 invoices up to the amount necessary to assure the School does not end a fiscal year with a deficit.

SECTION B

Independent Auditor's Report on State Compliance

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

To the Board of Directors
California Virtual Academy @ San Diego

Report on Compliance

Opinion

We have audited California Virtual Academy @ San Diego's (the School) compliance with the requirements specified in the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to the School's state program requirements identified below for the year ended June 30, 2024.

In our opinion, the School complied, in all material respects, with the laws and regulations of the state programs noted in the table below for the year ended June 30, 2024.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the School's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School's state programs.

Auditor's Responsibilities for the Audit Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to below occurred, whether due to fraud or error, and express an opinion on the School's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, will always detect a material misstatement when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to below is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School’s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances;
- Obtain an understanding of the School’s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the 2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, but not for the purpose of expressing an opinion on the effectiveness of the School’s internal control over compliance. Accordingly, no such opinion is expressed; and
- Select and test transactions and records to determine the School’s compliance with the state laws and regulations applicable to the items below.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are described in the accompanying Schedule of Findings and Questioned Costs as item 2024-1.

Government Auditing Standards requires the auditor to perform limited procedures on the School's response to the noncompliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The School's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on state compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

SECTION I - SCHEDULE OF AUDITOR'S FINDINGS

Current year audit findings identified below have been coded as follows:

<u>Five Digit Code</u>	<u>Finding Type</u>
30000	Internal Control
40000	State Compliance

- **2024 - 1: Complete Reporting on Nonclassroom-Based Determination of Funding**

Finding Code: 30000, 40000

Criteria: A charter school that has an approved charter may receive funding for nonclassroom-based instruction only if a determination for funding is made pursuant to Section 47634.2 by the State Board of Education. (*Education Code Section 47612.5(d)(1)*).

Condition: During the audit, we noted the information provided on Section II (Supplemental Information) of the nonclassroom-based determination of funding form (FDF) was incorrect. We did not note any exceptions in Sections I, III, or Sections IV-VII.

Effect: To determine the potential impact, we requested management to prepare an updated nonclassroom-based determination of funding. Management then re-examined the supporting documents to identify any missing information and determined that \$3,157 in expenses under salaries and benefits to certificated teachers had been omitted from the original submission. We performed further audit procedures to verify the amount identified by management was accurate and concluded it was determined accurately.

Cause: The School inadvertently input incorrect amounts for salaries and benefits to certificated teachers, which was not identified in the review process.

Recommendation: We recommend that management review their internal review process in order to ensure information reflected in the nonclassroom-based determination of funding forms in relation to expenses are accurately reflected.

Management's Response: The School is required to submit its nonclassroom-based determination of funding form using the CDE's PDF template. In order to ensure the School correctly and accurately reports expenditures in Section II of future nonclassroom-based determination of funding forms, management will strengthen their internal review process to ensure the reporting requirements are met.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
California Virtual Academy @ San Diego

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of California Virtual Academy @ San Diego (A Non-Profit Organization) (the School), which comprise the statement of financial position as of June 30, 2024, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements and have issued our report thereon dated December 11, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
California Virtual Academy @ San Diego

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited California Virtual Academy @ San Diego's (the School) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the School's major federal programs for the year ended June 30, 2024. The School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the School complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of *Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the School's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the School's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

GOVERNING BOARD**

BOARD REPORT #02

APPROVED

VIA: CALIFORNIA VIRTUAL ACADEMY STAFF

December 11, 2024

SUBJECT: Fiscal Year 2024-25 First Interim Budget Update

PROPOSAL:

It is proposed that the Governing Board of California Virtual Academy at San Diego approve the "First Interim Budget Update."

BACKGROUND:

This report has been prepared using the Fiscal Crisis and Management Assistance Team's (FCMAT's) Local Control Funding Formula (LCFF) calculator.

The adopted budget for the 2024-25 fiscal year was based on anticipated P2 ADA of 3,665 students. The current P2 ADA estimate for California Virtual Academy at San Diego has increased to 3,839 students, which is expected to generate \$56,576,873 in funding. The current budget anticipates a deficit of \$972,446, which K12 Inc. has agreed, under the terms of the Educational, Products, and Services Agreement, to issue invoice credits, to be applied to K12 Invoices, so that California Virtual Academy at San Diego's revenues meet all expenses with no deficit. The current budget also includes a \$5,049,994 carry forward fund balance from fiscal year 2023-24, which California Virtual Academy at San Diego will retain and carry forward into future fiscal years.

BUDGET IMPLICATIONS:

The forecasted revenue is \$56,576,873. The school anticipates an ending fund balance of \$5,049,994 for the 2024-25 school year.

RECOMMENDATIONS:

It is recommended that the Governing Board:

1. Approve the First Interim Budget Update for the 2024-25 school year on behalf of California Virtual Academy at San Diego.
2. Authorize the Head of School to make budget adjustments periodically to include unanticipated revenue or unexpected costs that may arise.

Procedures for Preventing Acts of Bullying and Cyber-bullying

Pages 17 & 18 of 40

Changed to the following so it is consistent with the CA Department of Education recommendation.

The school believes that all students have a right to a safe and healthy school environment. The school and community must promote mutual respect, tolerance, and acceptance.

The school will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass, or bully another student through words or actions. Such behavior includes direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name-calling; and social isolation or manipulation.

The school expects students and/or staff to report bullying incidents to the principal or designee immediately. Staff who witness such acts take immediate steps to intervene when safe to do so. Each complaint of bullying should be promptly investigated.

To ensure bullying does not occur at school, the school will provide staff development training in bullying prevention and cultivate acceptance and understanding in all students and staff to build each school's capacity to maintain a safe and healthy learning environment.

Teachers should discuss this policy with their students in age-appropriate ways and should assure them that they need not endure any form of bullying. Students who bully are in violation of this policy and are subject to disciplinary action up to and including expulsion.

The Student Code of Conduct includes, but is not limited to:

- Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.

- Students are expected to report bullying incidents to the principal or designee immediately.
- Students can rely on staff to promptly investigate each complaint of bullying thoroughly and confidentially.
- If the complainant student or the parent of the student feels that an appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the Director.
- The school prohibits retaliatory behavior against any complainant or any participant in the complaint process. The procedures for intervening in bullying behavior include, but are not limited, to the following:
 - All staff, students and their parents will receive a summary of this policy prohibiting intimidation and bullying: at the beginning of the school year, as part of the Parent-Student Handbook.
 - The school will make reasonable efforts to keep a report of bullying and the results of the investigation confidential.
 - Staff who witness acts of bullying shall take immediate steps to intervene when safe to do so.
 - People witnessing or experiencing bullying are strongly encouraged to report the incident; such reporting will not reflect on the target or witnesses in any way.

Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

Safety Plan Vision

Our school will support students with a culture that provides a positive and encouraging environment allowing each individual student to thrive and achieve their maximum academic success.

Components of the Comprehensive School Safety Plan (EC 32281)

California Virtual Academy at San Diego Safety Committee

Assessment of School Safety

- Site based surveys: parents, students, and staff
- Annual school safety protocols and procedures review

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

In accordance with Ed Code 32281 (Comprehensive School Safety Plan), section (f)

(1) A school district or county office of education may, in consultation with law enforcement officials, elect to not have its school site council develop and write those portions of its comprehensive school safety plan that include tactical responses to criminal incidents that may result in death or serious bodily injury at the schoolsite. The portions of a school safety plan that include tactical responses to criminal incidents may be developed by administrators of the school district or county office of education in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of that school district or county office of education, if he or she chooses to participate. The school district or county office of education may elect not to disclose those portions of the comprehensive school safety plan that include tactical responses to criminal incidents.

(2) As used in this article, "tactical responses to criminal incidents" means steps taken to safeguard pupils and staff, to secure the affected school premises, and to apprehend the criminal perpetrator or perpetrators.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Reporting

Approved by Boards: March 2021

Information

The California Virtual Academies are committed to supporting the safety and well-being of our students and desires to facilitate the prevention of and response to child abuse and neglect. The policy was created to ensure that all employees are provided training and support for preventing, recognizing, and promptly reporting known or suspected child abuse or neglect.

Definitions

Child abuse or neglect includes the following: (Penal Code 11165.5, 11165.6)

1. A physical injury or death inflicted by other than accidental means on a child by another person
2. Sexual abuse of a child, including sexual assault or sexual exploitation, as defined in Penal Code 11165.1
3. Neglect of a child as defined in Penal Code 11165.2
4. Willful harming or injuring of a child or the endangering of the person or health of a child as defined in Penal Code 11165.3
5. Unlawful corporal punishment or injury as defined in Penal Code 11165.4

Child abuse or neglect does not include:

1. A mutual affray between minors (Penal Code 11165.6)
2. An injury caused by reasonable and necessary force used by a peace officer acting within the course and scope of his/her employment (Penal Code 11165.6)
3. An injury resulting from the exercise by a teacher, vice principal, principal, or other certificated employee of the same degree of physical control over a student that a parent/guardian would be privileged to exercise, not exceeding the amount of physical control reasonably necessary to maintain order, protect property, protect the health and safety of students, or maintain proper and appropriate conditions conducive to learning (Education Code 44807)
4. An injury caused by a school employee's use of force that is reasonable and necessary to quell a disturbance threatening physical injury to persons or damage to property, to protect himself/herself, or to obtain weapons or other dangerous objects within the control of the student (Education Code 49001)
5. Physical pain or discomfort caused by athletic competition or other such recreational activity voluntarily engaged in by the student (Education Code 49001)
6. Homelessness or classification as an unaccompanied minor (Penal Code 11165.15)

Mandated reporters include, but are not limited to, teachers; instructional aides; classified employees; certificated pupil personnel employees; administrative officers; athletic coaches, administrators, and directors; licensed nurses or health care providers; and administrators, presenters, and counselors of a child abuse prevention program. (Penal Code 11165.7)

Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse or neglect. However, reasonable suspicion does not require certainty that child abuse or neglect has occurred, nor does it require a specific medical indication of child abuse or neglect. (Penal Code 11166)

Reportable Offenses

- A mandated reporter shall make a report using the procedures provided below whenever, in his/her professional capacity or within the scope of his/her employment, he/she has knowledge of or observes a child or dependent adult whom the mandated reporter knows or reasonably suspects has been the victim of abuse or neglect. (Penal Code 11166 and Welfare and Institutions Code 15630)
- Any mandated reporter who has knowledge of or who reasonably suspects that a child is suffering serious emotional damage or is at a substantial risk of suffering serious emotional damage, based on evidence of severe anxiety, depression, withdrawal, or untoward aggressive behavior toward self or others, may make a report to the appropriate agency. (Penal Code 11166.05, 11167)
- Any person shall notify a law enforcement agency if he/she reasonably believes that he/she has observed the commission of a murder, rape, or lewd or lascivious act by use of force, violence, duress, menace, or fear of immediate and unlawful bodily injury, where the victim is a child under age 14. (Penal Code 152.3, 288)

Responsibility for Reporting

- The reporting duties of mandated reporters are individual and cannot be delegated to another person. (Penal Code 11166)

- When two or more mandated reporters jointly have knowledge of a known or suspected instance of child abuse or neglect, the report may be made by a member of the team selected by agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report. (Penal Code 11166 and Welfare and Institutions Code 15630)
- No supervisor or administrator shall impede or inhibit a mandated reporter from making a report. (Penal Code 11166 and Welfare and Institutions Code 15630)

Reporting Procedures

Initial Telephone Report

- Mandated reporters shall call 9-1-1 for immediate emergencies.
- Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter as defined by law shall make an initial report by telephone. (B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Since our school is a non-classroom based independent study program with no school buildings, the procedures for different emergency types apply to school events held in buildings not owned by the school. For example, for in-person state testing the school will rent or borrow space from school districts, county office of education, churches, libraries, and clubs. The emergency response procedures can apply to any of these settings.

Our school is unique because we are virtual the majority of the time but do meet in person occasionally. An in-person event may be a time when staff, students, and parents/guardians come together at a public location for an "Outing". An in-person event may be for testing, where CAVA has secured (rented or borrowed) a space or building (library room, classrooms at a church, rooms at a district office). For testing, students usually attend without a parent. In order to cover these situations, parents/guardians sign a Parent's Approval, Student Waiver and Photo Release form (attached) at the beginning of each year.

Below are examples of outings that are approved for our schools:

- Park days
- Sporting events (i.e. minor league baseball games, bowling, etc.)
- Factory tours
- Museums
- Historical sites (i.e. historical home tours, missions, etc.)
- Government agencies (i.e. fire station, police department, library, post office, etc.)
- Local education opportunities (i.e. art schools, community organizations that offer classes for school-aged children, etc.)

Public Agency Use of School Buildings for Emergency Shelters

Non-classroom based charter school with no school buildings.

(E) Sexual Harassment Policies (EC 212.6 [b])

Prevention of Sexual Misconduct and Abuse

Board Policy June 2020

Information

Education code requires that schools post their staff/student interaction and professional boundaries policies on the school's website as well as distribute the policy to students and staff each year.

Policy Statement

California Virtual Academy is committed to providing students with a safe and supportive learning environment and to protecting its students from sexual misconduct and abuse. The responsibility to protect students from sexual misconduct and abuse is shared by the Board, administrators, teachers, other employees, volunteers, parents, state agencies, and law enforcement.

Sexual misconduct or abuse in any form and as defined in this policy is expressly prohibited by California Virtual Academy. While the School recognizes the importance of safe and appropriate communication and interaction between students and adults in student achievement, successful learning, and instruction, clear and reasonable boundaries for educator-student relationships are necessary to protect students from sexual misconduct and abuse and to protect adults from misunderstandings and false accusations. This policy outlines safe and appropriate boundaries for stakeholder interactions with students and strictly prohibits inappropriate or questionable conduct toward students by any stakeholders, including employees.

This policy applies to all stakeholders, including administrators, employees, volunteers, and vendors providing instructional services to students. In this policy, these individuals will be referred to as "adults." This policy must be reviewed and applied in conjunction with the School's mandating reporting policy and Professional Boundaries Policy.

Sexual Misconduct and Abuse Prohibited

Adults are prohibited from engaging in sexual misconduct and abuse of students, which includes unnecessary or intimate physical touching; dating; making sexual advances; seeking romantic or sexual relationships; seeking an emotional bond for the benefit of the adult; giving personal gifts that are intimate in nature; intentionally being alone with a student away from school; telling/allowing inappropriate sexual jokes or stories; becoming overly interested or attached, or showing undue attention toward, a specific student or students; any behavior that could be described as "grooming" behavior; having conversations of an intimate or sexual nature not related to the adult's professional responsibilities; and sexual contact.

This is a non-exhaustive list. Adults must also generally avoid any other conduct toward a student that would cause a reasonable person to suspect inappropriate behavior. Although this policy gives specific, clear direction, it is each adult's obligation to avoid situations that could prompt suspicion by parents, students, colleagues, or school leaders.

In-Person Communication and Interaction

Personal contact between adults and students must be nonsexual, appropriate to the circumstances, and unambiguous in meaning. Adults should avoid the appearance of impropriety in their interactions with students. Behaviors that can create an appearance of impropriety include, but are not limited to:

- Conducting ongoing, private conversations with individual students that are unrelated to academics, school activities, or the well-being of students and that take place in locations inaccessible to others;
- Inviting a student or students for home visits;
- Visiting the homes of students for any reason other than professional duties;
- Inviting students for social contact off school grounds without the permission or knowledge of parents/guardians; and
- Transporting students in personal vehicles without the parents or supervisors.

Adults, including employees and volunteers of the School, should respect boundaries consistent with their roles as educators, mentors, and caregivers. Violations of these boundaries include:

- Physical contact with a student that could be reasonable interpreted as constituting sexual harassment;

- Exposing students to sexualized content via pictures, videos, internet, or social media;
- Unnecessarily invading a student's personal privacy or physical space;
- Singling out a particular student or group of students for personal attention and friendship beyond the bounds of an appropriate adult/student relationship;
- Conversation of a sexual nature with students not related to the adult's professional responsibilities or role; and
- A flirtatious, romantic, or sexual relationship with a student.

Electronic Communication

Digital technology and social networking provide multiple means for adults, educators and other employees to communicate appropriately with students and personalize learning. Such communication between adults and students must be transparent, accessible to supervisors and parents/guardians, nonsexual, appropriate to the circumstances, unambiguous in meaning, and professional in content and tone.

As with in-person communications, adults should avoid appearances of impropriety and refrain from inappropriate electronic communications with students. Factors to consider in determining whether an electronic communication is inappropriate include, but are not limited to:

- The subject, content, purpose, authorization, timing, and frequency of the communication;
- Whether there was an attempt to conceal the communication from supervisors and/or parents/guardians;
- Whether the communication could be reasonably interpreted as soliciting sexual contact or a romantic relationship; and
- Whether the communication was sexually explicit.

Adults must restrict one-on-one, electronic communications with individual students to accounts, systems, and platforms that are provided by and accessible to the School.

If an adult does not have access to a Board-approved communication account, system, or platform and there is a time-sensitive or emergency School-related matter that must be communicated to students, the adult may use a personal communication account, system, or personal social media to communicate this information. The adult must note the date, time, and nature of the contact and email this information to their supervisor as communications with the student on behalf of the School is the property of the School.

Parents/guardians are encouraged to have access to their student's social networking and digital communications and to supervise their student's use of these methods of communication.

Reporting of Violations

Adults are required to report any case of suspected sexual misconduct or abuse to their supervisor (or to the Principal for non-employees), who shall report such information to the Head of School. This requirement is in addition to the requirements for reporting cases of suspected child abuse or neglect under any mandatory reporting laws.

In addition, adults are required to report suspected violations of this policy regarding in-person and electronic communications with students to their supervisor (or to the Principal for non-employees), who shall report such information to the Head of School.

Adults should not attempt to confront the perpetrator or conduct their own investigation. Instead, the matter must be referred to the School and a child protective agency as stated herein. For the privacy of the student and to avoid circulating harmful or incorrect information, adults must not unnecessarily disseminate information about a pending incident.

Training

The Board will provide training for employees and volunteers on the prevention of misconduct and abuse, in addition to any required training under mandated reporting laws. Information about this policy will also be disseminated to employees, volunteers, students and parents and posted on the School's website.

Investigation and Consequences for Violations

All complaints of sexual abuse or misconduct shall be investigated by the School. Such investigations shall occur within 30 days of a report.

Violations of this policy may be considered egregious and gross misconduct and form the basis for immediate termination without regard to the principles of progressive discipline. Employees found to be in violation of this policy may be disciplined, up to and including termination from employment. Volunteers found to be in violation of this policy may be ineligible for continued/future volunteer services and may be removed from their volunteer role.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Clothing worn to CAVA class sessions and events (including virtual events where webcams are used) should promote the learning process and appropriate behavior. The primary responsibility for student dress and appearance rests with the parent/legal guardian. The primary purpose of school is education. Therefore, all aspects of school must be considered with that objective in mind.

Clothing shall be neat, clean, safe, and not disruptive to instructional activities. Crude or vulgar commercial lettering or printing, and pictures depicting drugs, tobacco, alcoholic beverages, racial/ethnic slurs, gang affiliation, hateful speech, or that are sexually suggestive are not acceptable. Items such as beach attire, short shorts, short skirts, clothing exposing undergarments, or unsafe accessories are not allowed. Any clothing/accessory that may be deemed dangerous are unacceptable. Inappropriately revealing clothing, including but not limited to, see-through and/or strapless tops are not allowed. The wearing/displaying of apparel that is disruptive to the school environment is not allowed. Refusal to adhere to these dress standards will result in disciplinary action.

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

We are a nonclassroom-based charter schools with no school facilities.

(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

California Virtual Academy at San Diego Student Conduct Code

Freedom of speech and expression is valued not only throughout society but also, particularly, in the academic setting. No more is this so than in the classroom.

In CA Virtual Academy, a classroom is defined as many different locations. These may include but are not limited to:

- Virtual classroom sessions
- Class Connect and other online meeting rooms
- Online discussion boards
- Outings or other in-person events
- Any school community areas

As a diverse community of learners, students must strive to work together in a setting of civility, tolerance, and respect for each other in an environment that does not distract from the mutual commitment to academic inquiry and reflection. To that end, the following code of classroom etiquette has been established.

1. When participating in class dialogue, no one monopolizes discussions to the exclusion of others, either in terms of time or opinions expressed.
2. Conflicting opinions among members of a class are respected and responded to in a professional manner.
3. No side conversations or other distracting behaviors are engaged in during class discussions or presentations.
4. No offensive comments, language, or gestures are part of the classroom environment.
5. Posting anonymous messages is not permitted unless authorized by the course's online teacher. Impersonating another person is also strictly prohibited.
6. Use only your username and password, and do not share these with anyone.
7. Do not post personal information (Instagram, YouTube, Facebook, email address, etc.)
8. Do not interfere with other users' ability to access the online school or disclose anyone's password to others or allow them to use another user's account. You are responsible for all activity that is associated with your username and password.
9. Do not download, transmit or post material that is intended for personal gain or profit, non-school commercial activities, non-school product advertising or political lobbying on a school owned instructional computing resource.
10. Do not use school instructional computing resources to sell or purchase any illegal items or substances.
11. Do not upload or post any software on school instructional computing resources that are not specifically required and approved for your assignments.
12. Do not post any MP3 files, compressed video, or other non-instructional files to any school server.
13. Do not post material that is obscene or defamatory or which is intended to annoy, harass or intimidate another person. This includes distributing "spam" mail, chain email, viruses, or other intentionally destructive content.
14. Fully participate in the class session as required by the teacher through tools available such as polling, chat, whiteboard, and other activities.
15. Use your webcam to fully engage in the class session. When using the webcam, the school dress code must be followed. The background environment should be free from distractions and appropriate for a school environment. This includes posters/pictures, the attire of others in the household appearing on video, alcohol and drug paraphernalia, and profanity.

Conduct Code Procedures

Adherence to this code of etiquette will enable students to receive the most from their academic endeavors and should be seen as a regular and voluntary compact among faculty and students. Any infraction of this code, however, that is deemed to be materially or substantially disruptive of the learning environment is cause for removal of a student from a class or for student disciplinary proceedings.

Consequences

- First warning
- Certified letter
- If the problem continues, administrator phone conference
- Possible withdrawal

- Depending on the severity of each action, the school reserves the right to withdraw student upon each action

This document describes the policies and guidelines and exists to ensure that all students are aware of and understand their responsibilities when accessing and using school resources.

As a student, you should be aware of the following guidelines and expectations. Any activity that is not listed here, which violates local, state, or federal laws, is considered a violation of the Student Code of Conduct and Acceptable Use Guidelines.

Failure to follow these guidelines will result in the:

- Removal of your access to school instructional computing resources, which would result in your inability to complete learning activities.
- Involvement with law enforcement agencies and possible legal action.
- Withdrawal from our program.

(K) Hate Crime Reporting Procedures and Policies

Hate-Motivated Behaviors and Hate Crime Reporting Procedure

Approved by Boards: March 2021

Information

Every student has the right to be protected from "hate-motivated" behavior. The Head of School shall promote harmonious relationships that enable students to gain a true understanding of the civil rights and social responsibilities of people in our society. Behavior or statements that degrade an individual on the basis of his/her race, ethnicity, culture, heritage, gender, gender identity or expression, sexual orientation, physical/mental attributes or religious beliefs or practices shall not be tolerated and may be considered "hate-motivated" speech or "hate-motivated" behavior. A "hate-motivated" comment or "bias incident" is biased conduct, speech, or expression that has an impact, but does not involve a criminal action.

Hate crimes (vandalism, physical assault, arson, etc.) are crimes which are motivated, in whole or in part, by bias, by the targeted individual or group's characteristics or perceived characteristics of disability, gender, gender identity or expression, nationality, race or ethnicity, religion, sexual orientation, religious beliefs or association with a person or group who has one of these characteristics. "Hate crimes" should be reported to law enforcement.

School Climate

Everyday acts of intolerance and/or hate may manifest in a variety of ways: name-calling, slurs, sexual harassment, casual put downs regarding race, ethnicity, gender, size, abilities, perceived sexual orientation or gender identification. Administrators and teachers should actively work to promote a positive school climate. School staff are encouraged to:

- Work to establish a climate where casual slurs are uncommon and are challenged when they do occur. Set expectations of how students should speak to each other (in person and online), whether they are in or out of earshot of a teacher or administrator.
- Create a no-slur school by stating clear support for a safe, open learning environment free of slurs. Be specific: no insults related to ability, appearance, culture, gender, home language, race, ethnicity, religion, sexual orientation or social class will be tolerated.
- Check for signs of hostility, depression, or a marked change in behavior or academic performance, and reach out to the student's parents or guardians and/or the school counselor as appropriate.
- Model inclusive, pro-social behavior and interrupt moments of bias among staff.

If a "hate-motivated" comment or action occurs, school staff should be prepared to discuss how the school will respond.

Reporting

Any student who feels that they are a victim of "hate-motivated" behavior shall immediately contact the principal or any trusted staff member with whom the student has a relationship. Reports can be made in writing or verbally and all complaints should be reported to an administrator. If the student believes that the situation has not been remedied by the principal or designee, the student may file a complaint through the Uniform Complaint Procedures.

Staff who receive notice of "hate-motivated" behavior or personally observe such behavior shall notify the principal.

Grievance Procedures & Investigation

When a staff member first hears "hate speech" or "bias speech," they should immediately interrupt, address, and admonish the student making such comments. The staff member should do an initial inquiry with the victim-student to determine if a full investigation is needed. Included in that initial inquiry should be questions regarding the harm that the student has suffered, frequency and persistence of the behavior, and the history between the students. If the administrator determines that a full investigation is needed to learn more about the incident and/or to determine what happened, s/he should reference and complete the "Hate Speech/Discrimination Investigation Form" as they conduct their investigation. At the completion of the investigation, the administrator is responsible for providing the Investigation Form and supporting documents to the Director.

Once an administrator receives a report of "hate-motivated" behavior, and determines that a full investigation is needed, the administrator/investigator should begin their investigation immediately. If the administrator determines that a full investigation is needed, the administrator shall conduct a thorough and equitable investigation into the allegations and inform the victim-student/family regarding the status of the investigation. During the course of the investigation, the administrator should consider the following factors:

- Put safety first,

Denounce the act,

Investigate,

Involve others where necessary,

Provide accurate information and dispel misinformation, Support targeted students,

- Seek justice, avoid blame, and Promote healing.
- A student who has been found to have demonstrated "hate-motivated" behavior shall be subject to discipline in accordance with law, and Code of Conduct.
- Once the full investigation is complete, the administrator should:

o Debrief with their Director, investigation team, and staff to discuss the investigation process to review lessons learned,

o Expand the discussion to include relevant students, parents and guardians and community members, keeping in mind that an individual student's disciplinary record is confidential under state law and FERPA,

o Take notes about all suggestions and comments and include those with the Investigation Form, and Discuss all follow-up steps and use them to create a road map for change (if needed).

Training

As necessary, the school shall provide counseling and appropriate sensitivity training and diversity education for students exhibiting "hate-motivated" behavior. The school shall also provide counseling, guidance and support, as necessary, to those students who are the victims of "hate-motivated" behavior.

The Head of School or designee shall ensure that staff receive training on recognizing "hate-motivated" behavior and on strategies to help respond appropriately to such behavior.

At the beginning of each school year, students and staff shall receive a copy of the school's board policy on "hate-motivated" behavior. The school shall provide age-appropriate instruction to help promote an understanding of and respect for human rights, diversity, and tolerance in a multicultural society and to provide strategies to manage conflicts constructively.

(J) Procedures to Prepare for Active Shooters

Active shooter incidents are often unpredictable and evolve quickly. In the midst of chaos, anyone can play an integral role in mitigating the impacts of an active shooter incident. The first step in preparing for a possible active shooter is prevention.

Prevention

Before the start of each school year, staff will complete the following training.

Bully, Harassment, and Hate Motivated Behavior Prevention

Mandated Reporter

Suicide Prevention

Welfare Check

Safety Risk Process (Threat Assessment)

The school established a multidisciplinary team and safety risk process used to assess each report and respond to threats of violence and other concerning behavior. Reporting on a variety of concerning student behaviors and other suspicious activities provides authorities and school personnel with the information they need to stop violence before it occurs. A 2008 study showed that, prior to an act of violence, most attackers behaved in a way that made others concerned, and other people knew about the attacker's plan. Having a threat assessment program, or a multidisciplinary group process, to evaluate these reports can significantly reduce violence, including mass casualty attacks.

The second step to preparing for an active shooter is to provide training to staff on what to do if they are in the situation. This is done through this Comprehensive School Safety Plan as well as providing additional information to teachers before each in-person outing. Prior to each outing/event, please review the Being Prepared for an Active Shooter document (attached), which outlines recommendations from the Department of Homeland Security for active shooter incidents. The universal recommendation is Run, Hide, Fight. It is important, prior to leading an activity to familiarize yourself with the physical layout and exit routes as well as check for any safety concerns, and by calling 9-1-1 if needed.

Procedures for Preventing Acts of Bullying and Cyber-bullying

The school believes that all students have a right to a safe and healthy school environment. The school and community must promote mutual respect, tolerance, and acceptance.

The school will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass, or bully another student through words or actions. Such behavior includes direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name-calling; and social isolation or manipulation.

The school expects students and/or staff to report bullying incidents to the principal or designee immediately. Staff who witness such acts take immediate steps to intervene when safe to do so. Each complaint of bullying should be promptly investigated.

To ensure bullying does not occur at school, the school will provide staff development training in bullying prevention and cultivate acceptance and understanding in all students and staff to build each school's capacity to maintain a safe and healthy learning environment

Teachers should discuss this policy with their students in age-appropriate ways and should assure them that they need not endure any form of bullying. Students who bully are in violation of this policy and are subject to disciplinary action up to and including expulsion.

The Student Code of Conduct includes, but is not limited to:

Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.

* Students are expected to report bullying incidents to the principal or designee immediately.

* Students can rely on staff to promptly investigate each complaint of bullying thoroughly and confidentially.

* If the complainant student or the parent of the student feels that an appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the Director.

* The school prohibits retaliatory behavior against any complainant or any participant in the complaint process.

The procedures for intervening in bullying behavior include, but are not limited, to the following:

- * All staff, students and their parents will receive a summary of this policy prohibiting intimidation and bullying: at the beginning of the school year, as part of the Parent-Student Handbook.
- * The school will make reasonable efforts to keep a report of bullying and the results of the investigation confidential.
- * Staff who witness acts of bullying shall take immediate steps to intervene when safe to do so.
- * People witnessing or experiencing bullying are strongly encouraged to report the incident; such reporting will not reflect on the target or witnesses in any way.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Emergency Actions are a set of simple directives and alert level procedures that may be implemented across a number of emergency situations. When an emergency occurs, it is critical that staff members take immediate steps to protect themselves and others. With Emergency Actions in place, staff can follow specific directions without having to learn extensive protocols for each of several dozen different emergency situations. The Principal/Site Admin will decide which Emergency Actions to implement, based on the situation. The first response to an emergency is to determine the type of emergency that has occurred. Procedures for different types of emergencies are listed in the following section.

Step Two: Identify the Level of Emergency

The second step in responding to an emergency is to determine the level of the emergency. For schools, emergency situations can range from a small fire to a major earthquake. To assist schools in classifying emergency situations, there is a three-tiered rating below:

Level 1 Emergency: A minor emergency that is handled by school personnel without the assistance from outside agencies, e.g., a minor earthquake, or a minor injury.

Level 2 Emergency: A moderate emergency that requires assistance from outside agencies, such as a fire or a moderate earthquake.

Level 3 Emergency: A major emergency event that requires assistance from outside agencies such as a major earthquake, civil disturbance or a large-scale act of terrorism. For Level 3 emergencies, it is important to remember that the response time of outside agencies may be seriously delayed.

Step Three: Determine the Immediate Response Action

Once the type and extent of an emergency have been identified, school personnel can determine if an immediate response action is required. The most common immediate response actions initiated during emergencies are: Lockdown, Shelter in Place, Duck, Cover and Hold, and Evacuation.

LOCKDOWN is initiated to isolate students and staff from danger on or near the building when movement within the building and within rooms might put students and staff in jeopardy. LOCKDOWN is used to prevent intruders from entering occupied areas of the buildings.

- Lock the doors;
- Close and lock windows, and close blinds or cover windows;
- Turn off lights;
- Silence all electronic devices;
- Remain silent;
- Use strategies to silently communicate with first responders if possible;
- Hide along the wall closest to the exit but out of the view from the hallway (allowing for an ambush of the intruder and for possible escape if the intruder enters the room); and
- Remain in place until the release from lockdown by school administration or evacuated by law enforcement.

SHELTER IN PLACE is implemented when there is a need to isolate students and staff from the outdoor environment to prevent exposure to airborne contaminants. The procedures include closing and sealing doors, windows and vents; shutting down the building heating, ventilation and air conditioning systems to prevent exposure to the outside air; and turning off pilot lights. SHELTER IN PLACE allows for the free movement of staff and students within the building, although one should not leave the room until further instructions are received. It is appropriate for, but not limited to, gas leaks, external chemical release, dirty bombs and hazardous material spills.

DUCK, COVER AND HOLD ON is the action taken during an earthquake to protect students and staff from flying and falling debris. DUCK, COVER AND HOLD ON is an appropriate action for use during an earthquake or explosion. Immediate EVACUATION and an emergency damage assessment must be performed prior to occupancy of the building, following any event prompting the use of DUCK, COVER AND HOLD ON.

EVACUATION is implemented when conditions make it unsafe to remain inside the building(s). This action provides for the orderly movement of students and staff along prescribed routes from inside the building to a designated outside area of safety.

ALL CLEAR: Notification is given that normal school operations should resume.

Step Four: Communicate the Appropriate Response Action

Principal/Site Admin should use any means available to them to communicate with staff and inform them which response action to take.

Types of Emergencies & Specific Procedures

Aircraft Crash

Emergency response will depend on the size of the aircraft, nature of the crash, and proximity to the building. If it is safe to remain inside the building, all students should be kept inside under supervision. The crash may also result in an explosion, chemical spill or utility interruption.

STAFF ACTIONS:

Move students away from immediate vicinity of the crash.

Call 911

EVACUATE students from the building using primary and/or alternate fire routes to a safe assembly area away from the crash scene.

Take class roster.

Check site to ensure that all students have evacuated.

Take attendance at the assembly area.

Report missing students to the Principal /Site Admin and emergency response personnel.

Maintain control of the students a safe distance from the crash site.

Care for the injured, if any.

Escort students back to the site when emergency response officials have determined it is safe to return to the building.

SITE ADMINISTRATOR ACTIONS:

Call 911, if someone else hasn't already done so.

Determine immediate response procedures, which may include EVACUATION, or OFF-SITE EVACUATION.

Arrange for first aid treatment and removal of injured occupants from building.

Secure area to prevent unauthorized access until the Fire Department arrives. Ensure that students and staff remain at a safe distance from the crash.

Account for all building occupants and determine extent of injuries.

Do not re-enter building until the authorities provide clearance to do so.

Notify the Director

Animal Disturbance

If there is a rabid or uncontrollable animal at the location, implement this procedure when any wild animal threatens the safety of the students and staff

SITE ADMINISTRATOR ACTIONS:

Isolate the students from the animal. Close doors and lock tables as a means to isolating the animal.

If the animal is outside, keep students inside and institute Lockdown.

If the animal is inside, initiate an EVACUATION outside to a protected area away from the animal

Call 9-1-1

If the animal injures anyone, seek medical assistance.

Notify parent/guardian and recommended health advisor.

STAFF/TEACHER ACTIONS:

If the animal is outside, keep students inside. Lock doors and keep students away from the windows.

If the animal is inside, EVACUATE students to a sheltered area away from the animal.

Notify the site admin if there are any injuries.

Armed Assault on Campus

Active Shooter / Armed Assailant Situations

“Active shooter situations” are defined as those where an individual or individuals is “actively engaged in killing or attempting to kill people in a confined and populated area.”

Active shooters / armed assailants frequently use firearms, but attacks of this type can also be made with other types of weapons (knives, swords, etc.). These situations are unpredictable and evolve quickly. Because of this, individuals must be prepared to deal with an active shooter / armed assailant situation before law enforcement personnel arrive on the scene.

No single response fits all active shooter / armed assailant situations; therefore, it is essential all members of the school staff know their options for response and are prepared to act decisively to protect their students and themselves.

ACTIONS – ALL SCHOOL STAFF

All employees are authorized to take immediate action to protect themselves and their students if they see or hear anything that causes them to believe an active shooter / armed assailant situation is occurring or is to about to occur.

- Act immediately if you or your students:
 - o hear a sound that might be gunfire.
 - o see something that looks like a weapon being carried or used on or near the campus.
 - o sense any other indication of an active shooter / armed assailant threat.
- Quickly evaluate which option (Run, Hide, or Fight) will best protect you and your students.
- Be decisive. Communicate your plan to your students and act quickly.
- CALL 911 as soon as it is safe to do so.

Options: Run, Hide, or Fight

RUN: If you can get yourself and your students safely away from danger, do so immediately.

- Do not evacuate unless you...
- o know with certainty, the exact location of the assailant (do not trust unofficial, second-hand accounts), and
- o can visualize a route that will get your students and yourself safely off campus.
 - Don't carry anything with you.
- o Police may mistake an item in your hands as a weapon.
- o Leave everything behind.
 - If you encounter people along the way...
- o Adults: Warn them and take them with you if you can but don't stop if they refuse to come.
- o Students: Warn any students you encounter and take them with you. You may use reasonable force to take a student with you if you can do so without endangering yourself or the other students in your care.
 - Place terrain and buildings between you and the assailant to cover your escape.
 - Keep going until you are certain you are out of danger.
 - Call 911 as soon as it is safe to do so.
 - Keep your students with you.

HIDE: If you do not know the exact location of the assailant, get your students and yourself into the most secure location available and **LOCKDOWN**.

- Lock the doors
- Close and lock windows and close blinds or cover windows;
- Turn off lights;
- Barricade the doors with heavy furniture; be sure your barricade covers any glass in or near the door;
- Silence all electronic devices;
- Remain silent;
- Position occupants spread out and out of line of sight from the room entrance;
- Use text or email to communicate your location, the number of students or staff with you, if you have any wounded, and the extent of the injuries;
- Call 911 as soon as it is safe to do so;

- Remain in place until evacuated by identifiable law enforcement officers.

FIGHT: Never seek out confrontation with an active shooter / armed assailant. If you are confronted by an active shooter / armed assailant and you have no safer option, take immediate action to disrupt or incapacitate the assailant. If you choose the FIGHT option, commit to your actions.

- If you are in LOCKDOWN (Hide), prepare yourself and your students for the possibility that the assailant may attempt to get in the room you are in.
- o Construct a strong barricade.
- o If you have another way out (a window or back door) use it while the assailant is attempting to get in.
- o If no other exit is available be prepared to disrupt the assailant by throwing objects at the assailant and running for the exit as soon as the assailant enters the room.
- o Use items in the environment as improvised weapons (fire extinguishers, staplers, books, cups, etc.)
 - Staff members may consider using aggressive and violent force to surprise and overwhelm the assailant.

3. Call 911 and initiate a LOCKDOWN announcement as soon as you can do so safely. Work with the people you are with to do both calls simultaneously if possible.

Provide as much information as possible (slow down – be calm):

- State the emergency: “I hear gunfire.” “I saw...”
- Give information on people who are wounded.
- Location of the assailant (if known).
- Description of the assailant (if known).
- Your precise location: “room ___”
- The number of children with you.
- Keep the line open, even if you can’t talk, unless instructed by the dispatcher to end the call.

4. Special Topics

Injuries: Your response to injured persons will need to vary given the specific circumstances that are present and the response option (Run, Hide, or Fight) you are engaged in.

Run – If you encounter injured persons while you are trying to get out of danger and you have children with you, you must place their safety ahead of the injured person. Take note of where the injured person is and report the location as soon as you get to safety.

Hide – If someone is injured where you are hiding, secure the room before tending to the wounded. As soon as it is safe to do so, apply first aid using any available supplies. If necessary, use articles of clothing as an improvised dressing for wounds and apply direct pressure to control bleeding.

Fight – This is always the option of last resort because the probability of injury is highest when you are near the assailant. Commit to your plan. Do not stop to tend to the wounded until it is safe to do so.

- If your intention is to disrupt the assailant to allow as many people to escape as possible, stick to that plan.
- If you plan to incapacitate the assailant, keep fighting until the assailant is incapacitated and the weapon and assailant are under control.

Law Enforcement: If you encounter law enforcement officers...

- Immediately raise your hands in the air and display your open palms.
- Don’t run up to officers or attempt to hug or talk to them.
- Don’t talk unless they ask you a question.
- Do exactly what they tell you to do.

Weapons: If the assailant loses control of a weapon, exercise extreme care when securing it:

- Do not pick up the weapon. Law enforcement may shoot you if they see you holding a weapon.

- Secure the weapon by placing an empty trash can over it and sliding it to a location where it can be kept covered and under control until a law enforcement officer can take possession of it.

"Be Prepared for an Active Shooter" brochure is attached at the end of the plan.

Biological or Chemical Release

This is an incident involving the discharge of a biological substance in a solid, liquid or gaseous state. Such incidents may include the release of radioactive materials. A biological agent can be introduced through:

- postal mail, via a contaminated letter or package
- a building's ventilation system
- a small explosive device to help it become airborne
- a contaminated item such as a backpack, book bag, or other parcel left unattended
- the food supply
- aerosol release (for example, with a crop duster or spray equipment)

Defense against biological release (e.g. anthrax, smallpox, plague, ricin etc.) is difficult because usually appear after some time has lapsed. Indicators that may suggest the release of a biological or chemical substance include multiple victims suffering from: watery eyes, choking or breathing difficulty, twitching or the loss of coordination. Another indicator is the presence of distressed animals or dead birds. Determine which scenario applies and implement the appropriate response procedures.

Outside the building

STAFF ACTIONS:

Notify site admin

Move students away from immediate vicinity of danger (if outside, implement Take Cover).

Segregate individuals who have been topically contaminated by a liquid from unaffected individuals. Send affected individuals to a designated area medical attention.

Follow standard student assembly, accounting and reporting procedures.

SITE ADMINISTRATOR ACTIONS:

Initiate SHELTER IN PLACE.

Shut off HVAC units.

Move to central location where windows and doors can be sealed with duct tape.

Call 911. Provide location and nature of the emergency and school actions taken.

Notify Director of the situation.

Turn on a battery-powered commercial radio and listen for instructions.

Remain inside the building until the Department of Health or Fire Department determines it is safe to leave.

Arrange for psychological counseling for students and staff.

Inside the building

STAFF ACTIONS:

Notify the site administrator.

Segregate individuals who have been topically contaminated by a liquid from unaffected individuals.

Implement EVACUATION as appropriate. Send affected individuals to a designated area for medical attention.

Follow standard student assembly, accounting and reporting procedures.

Prepare a list of those who are in the affected area to provide to emergency response personnel.

SITE ADMINISTRATOR ACTIONS:

Initiate EVACUATION to move students away from immediate vicinity of danger.

Move up-wind from the potential danger.

Call 911. Provide exact location and nature of emergency.

Designate security team to isolate and restrict access to potentially contaminated areas.

Wait for instructions from emergency responders-- Health or Fire Department.

Notify Director of the situation.

Arrange for immediate psychological counseling for students and staff.

Wait to return to the building until it has been declared safe by local HazMat or appropriate agency.

THOSE WHO HAVE DIRECT CONTACT WITH BIOLOGICAL AGENT:

Wash affected areas with soap and water.

Immediately remove and contain contaminated clothing

Do not use bleach on potentially exposed skins.

Remain in safe, but separate area, isolated from those who are unaffected, until emergency response personnel arrive.

Bomb Threat/ Threat Of violence

In the event that the site receives a bomb threat by telephone, follow the Bomb Threat Checklist (attachment) to document information about the threat. Keep the caller on the telephone as long as possible and listen carefully to all information the caller provides.

PERSON RECEIVING THREAT BY TELEPHONE:

Listen. Do not interrupt caller.

Keep the caller on the line with statements such as "I am sorry, I did not understand you. What did you say?"

Alert someone else by prearranged signal to notify the telephone company to trace the call while the caller is on the line.

Notify site administrator immediately after completing the call.

Complete the Bomb Threat Checklist.

PERSON RECEIVING THREAT BY MAIL:

Note the manner in which the threat was delivered, where it was found and who found it.

Limit handling of item by immediately placing it in an envelope so that fingerprints may be detected. Written threats should be turned over to law enforcement.

Caution students against picking up or touching any strange objects or packages.

Notify site administrator.

SITE ADMINISTRATOR ACTIONS:

Call 911.

If the caller is still on the phone, contact the phone company to trace the call. Tell the telephone operator the name of building, name of caller, phone number on which the bomb threat came in. This must be done quickly since the call cannot be traced once the caller has hung up.

Instruct staff and students to turn off any pagers, cellular phones or two-way radios. Do not use those devices during this threat since explosive devices can be triggered by radio frequencies.

Determine whether to evacuate the threatened building and adjoining buildings. If the suspected bomb is in a corridor, modify evacuation routes to bypass the corridor.

Use the intercom, personal notification by designated persons, or the PA system to evacuate the threatened rooms.

If it is necessary to evacuate the entire building, use the fire alarm.

Notify the Director of the situation.

Direct a search team to look for suspicious packages, boxes or foreign objects.

Do not return to the building until it has been inspected and determined safe by proper authorities.

Avoid publicizing the threat any more than necessary.

SEARCH TEAM ACTIONS:

Use a systematic, rapid and thorough approach to search the building and surrounding areas.

Check rooms, public areas (foyers, offices, bathrooms and stairwells), unlocked closets, exterior areas (shrubbery, trash cans, debris boxes) and power sources (computer rooms, gas valves, electric panels, telephone panels).

If suspicious item is found, make no attempt to investigate or examine object.

STAFF ACTIONS:

Evacuate students as quickly as possible, using primary or alternate routes.

Upon arrival at the designated safe site, take attendance. Notify the site administrator of any missing students.

Do not return to the building until emergency response officials determine it is safe.

Non-504 Health Tracking Process

Overview: This process ensures that safety guidelines are followed in an ongoing commitment to meet students' health needs. These procedures identify, track, and securely notify and update staff members who facilitate in-person testing and/or a designated activity when a student with medical conditions not covered in a 504 plan is on-site without a parent/LG present.

Safety checklist:

- o Students have name tags
 - o Staff have name tags
 - o Volunteers have name tags
 - o Emergency forms are completed for all students and accessible to staff
 - o Check-in/out procedure understood and followed
 - o A visual wellness check is done as students arrive
 - o A visual safety check of the site is done before students arrive
 - o First aid kit, disposable gloves, small trash bags, paper towels, facial tissue, and hand sanitizer are available
 - o Staff is aware of and has reviewed the Comprehensive School Safety Plan.
-
- Epileptic Students: Once made aware, please reach out to the Special Education and/or 504 teams to develop an appropriate, individualized protocol to support the student. Please confidentially share the protocol with all staff at the site. If medication is part of the protocol, an Authorization for Medications will need to be completed. Please reach out to your supervisor for guidance.
 - Students Requiring Medication: If a student requires medication, the Authorization for Medications will need to be completed by a healthcare provider and be on file with the school prior to the in-person testing and/or designated event; otherwise, the parent or guardian will be required to remain on-site to administer the medication.
 - CPR/First Aid Training: We encourage all staff to be certified in CPR and First Aid. The American Red Cross offers in-person and online classes. Remuneration for the training fee will be provided as the need is determined.
 - Incident Report Form: Please print out several copies and have them available at your site to complete in the event of an accident. Please contact your supervisor immediately if someone is injured at your location.

Students with Medical Conditions:

Parents/LGs will be prompted, when confirming in-person attendance for state testing or other designated events where the parent/LC will not be present, to note health concerns that may impact students during testing/activity. The testing team will handle clarification and follow-up. Information will be shared directly with test site coordinators/designated staff. Staff will take necessary measures to ensure students' medical needs are met.

The Authorization for Medication to be Taken at School form is attached to this plan.

Disorderly Conduct

A risk to the life and safety of students and staff may exist there is a serious display of disordered thought or behavior. Possible symptoms include: hallucinations, extreme paranoia, impaired judgment that may lead to unsafe decision-making and dangerous behavior (to self or others), incoherent or disjointed speech and self-injurious behavior such as: hitting head, cutting self. Attempts should be made to use de-escalation strategies, calming techniques (e.g., deep breathing), and to implement behavior plans, crisis plans or strategies in IEP, if in place.

SITE ADMINISTRATOR ACTIONS:

Keep the individual under continuous adult supervision.

Keep the individual on campus until parent/guardian has been notified.

Arrange appropriate support services for necessary care of individual.

If the individual actively displays dangerous behavior or there is reason to believe the student cannot be safely transported, call agencies as appropriate to coordinate emergency mental health services (e.g., mental health facilities, juvenile court, law enforcement).

School professional (psychologist, counselor, social worker, nurse) should recommend next steps to the principal. The next steps may include:

Provide parents/guardian with the names and phone numbers of mental health resources

Recommend that the parents make an immediate contact with a therapist.

Request that parents/guardian to sign release forms to allow two-way communication between the school and the treating agency. Make a follow-up check with the treating agency, family and student as appropriate, to ensure that appropriate care has been arranged.

Provide follow-up collaborative support for the student and parents (as indicated)

Document actions taken on behalf of the student (referrals, phone contacts, follow-up activities, etc.)

STAFF ACTIONS:

Take immediate action to isolate the individual and provide safety to the student body. Do not leave the irrational individual alone.

Notify site administrator.

Protect individual from injury.

Complete Threat Assessment Form

Earthquake

Earthquakes strike without warning. Fire alarms or sprinkler systems may be activated by the shaking. The effect of an earthquake from one building to another will vary. Elevators and stairways will need to be inspected for damage before they can be used. The major shock is usually followed by numerous aftershocks, which may last for weeks.

The major threat of injury during an earthquake is from falling objects, glass shards, and debris. Many injuries are sustained while entering or leaving buildings. Therefore, it is important to quickly move away from windows, free-standing partitions, and shelves and take the best available cover under a sturdy desk or table, in a doorway, or against an inside wall. All other actions must wait until the shaking stops. If persons are protected from falling objects, the rolling motion of the earth may be frightening but not necessarily dangerous.

Inside Building

SITE ADMINISTRATOR ACTIONS:

Direct inspection and assessment of buildings. Report building damage and suspected breaks in utility lines or pipes to fire department responders.

Send search and rescue team to look for trapped students and staff.

Post guards a safe distance away from building entrances to ensure no one re-enters.

Notify the Director of school and personnel status. Determine who will inform public information media as appropriate.

Do NOT re-enter the building until it is determined to be safe by the appropriate facilities inspector.

Determine whether to close the site. If the site must be closed, notify staff members, students, and parents.

STAFF ACTIONS:

Give DROP, COVER and HOLD ON command. Instruct students to move away from windows, bookshelves, and heavy suspended light fixtures. Get under a table or other sturdy furniture with back-to windows.

Check for injuries and render First Aid.

After shaking stops, EVACUATE building. Avoid evacuation routes with heavy architectural ornaments over the entrances. Do not return to the building. Bring an attendance roster and emergency backpack.

Check attendance at the assembly area. Report any missing students to the site administrator.

Warn students to avoid touching electrical wires and keep a safe distance from any downed power lines.

Stay alert for aftershocks

Do NOT re-enter the building until it is determined to be safe.

Outside Building

STAFF ACTIONS:

Move students away from buildings, trees, overhead wires, and poles. Get under a table or other sturdy furniture with back-to windows. If not near any furniture, drop to your knees, clasp both hands behind your neck, bury your face in your arms, make your body as small as possible, close your eyes, and cover your ears with your forearms. If notebooks or jackets are handy, hold over the head for added protection. Maintain position until shaking stops.

After shaking stops, check for injuries, and render first aid.
Check attendance. Report any missing students to the site administrator.
Stay alert for aftershocks.
Keep a safe distance from any downed power lines
Do NOT re-enter the building until it is determined to be safe.
Follow instructions of principal/site administrator.

Explosion or Risk Of Explosion

Emergency response will depend on the type of explosion (smoke bomb, chemical lab incident, etc.) and proximity to the building. All students should be kept away from the explosion and under supervision.

SITE ADMINISTRATOR:

Determine whether site evacuation should be implemented. If so, sound fire alarm. This will automatically implement action to EVACUATE the building. EVACUATION may be warranted in some buildings but others may be used for

SHELTER IN PLACE.

Notify Fire Department (call 911). Provide building name, address, exact location within the building, your name and phone number and nature of the emergency.

Secure area to prevent unauthorized access until the Fire Department arrives.

Advise the Director of status.

Notify emergency response personnel of any missing students.

Notify utility company of breaks or suspected breaks in utility lines or pipes. Provide building name, address, location within building, your name and phone.

Direct a systematic, rapid and thorough approach to search the building and surrounding areas. Check classrooms and work areas, public areas (foyers, offices, bathrooms and stairwells), unlocked closets, exterior areas (shrubbery, trash cans, debris boxes) and power sources (computer rooms, gas valves, electric panels, telephone panels).

Determine if Student Release should be implemented. If so, notify staff, students and parents.

If damage requires the site to be closed, notify parents and staff of status. Do not return to the building until it has been inspected and determined safe by proper authorities.

STAFF ACTIONS:

Initiate DROP, COVER AND HOLD ON.

If explosion occurred inside the building, EVACUATE to outdoor assembly area. Keep students and staff at a safe distance from the building(s) and away from fire-fighting equipment.

Check to be sure all students have left the site. Remain with students throughout evacuation process.

Upon arrival at assembly area, check attendance. Report status to site administrator immediately.

Render first aid as necessary.

Do not return to the building until the emergency response personnel determine it is safe to do so.

If explosion occurred in the surrounding area, initiate SHELTER IN PLACE. Keep students at a safe distance from site of the explosion.

Fire in Surrounding Area

A fire in an adjoining area, such as a wild land fire, can threaten the building and endanger the students and staff. Response actions are determined by location and size of the fire, its proximity to the building and the likelihood that it may endanger the building.

SITE ADMINISTRATOR ACTIONS:

Determine if EVACUATION of site is necessary.

Contact local fire department (call 911) to determine the correct action for your site.

If necessary, begin evacuation of site to a safe site using site evacuation plan.

Direct inspection of premises to ensure that all students and personnel have left the building.

Notify the Director where the site has relocated and post a notice on the office door stating the temporary new location.

Monitor radio station for information.

Do not return to the building until it has been inspected and determined safe by proper authorities.

STAFF ACTIONS:

If students are to be evacuated, take attendance to be sure all students are present before leaving the building site. Stay calm. Maintain control of the students a safe distance from the fire and firefighting equipment. Take attendance at the assembly area. Report any missing students to the site administrator and emergency response personnel. Remain with students until the building has been inspected and it has been determined safe to return to.

Fire on School Grounds

Since the school doesn't have school sites, this section applies to buildings where in-person school events are held. If it's an outing at a public venue, you would have employees' directions. Should any fire endanger the students or staff, it is important to act quickly and decisively to prevent injuries and contain the spread of the fire. All doors leading to the fire should be closed. Do not re-enter the area for belongings. If the area is full of smoke, students and employees should be instructed to crawl along the floor, close to walls, which will make breathing easier and provide direction. Before opening any door, place a hand an inch from the door near the top to see if it is hot. Be prepared to close the door quickly at the first sign of fire. All fires, regardless of their size, which are extinguished by staff, require a call to the Fire Department to indicate that the "fire is out".

Within Building

SITE ADMINISTRATOR ACTIONS:

Sound the fire alarm to implement EVACUATION of the building.
Immediately EVACUATE the site using the primary or alternate fire routes.
Notify the Fire Department (call 911).
Direct search and rescue team to be sure all students and personnel have left the building.
Ensure that access roads are kept open for emergency vehicles.
Notify District Office of situation.
Notify appropriate utility company of suspected breaks in utility lines or pipes.
If needed, notify bus dispatch for OFF-SITE EVACUATION.
Do not allow staff and students to return to the building until the Fire Department declares that it is safe to do so.

STAFF ACTIONS:

EVACUATE students from the building using primary or alternate fire routes Take emergency backpack and student kits. Maintain control of the students a safe distance from the fire and firefighting equipment.
Take attendance. Report missing students to the site admin and emergency response personnel.
Maintain supervision of students until the Fire Department determines it is safe to return to the building.

Near the Site

SITE ADMINISTRATOR ACTIONS:

Notify the Fire Department (call 911). The Fire Marshall will direct operations once on site.
Determine the need to implement an EVACUATION. If the fire threatens the site, execute the actions above. If not, continue with the routine.

Flooding

Flooding could threaten the safety of students and staff whenever storm water or other sources of water threaten to inundate grounds or buildings. Flooding may occur if a water pipe breaks or prolonged rainfall causes urban streams to rise. Flooding may also occur as a result of damage to water distribution systems such as the failure of a dam or levee. If weather-related, an alert message will be broadcast over the weather radio station.

SITE ADMINISTRATOR ACTIONS:

Issue STAND BY instruction. Determine if evacuation is required.
Notify the local police department of the intent to EVACUATE, the location of the safe evacuation site, and the route to be taken to that site.
Delegate a search team to ensure that all students have been evacuated.
Monitor AM radio weather station for flood information.
Notify the Director of the site status and action taken.

Do not allow staff and students to return to the building until proper authorities have determined that it is safe to do so.

STAFF ACTIONS:

If warranted, EVACUATE students using evacuation plan. Take the class roster and emergency backpack. Take attendance before leaving the campus.

Remain with students throughout the evacuation process.

Upon arrival at the safe side, take attendance. Report any missing students to the site administrator and emergency response personnel.

Do not return to the building until it has been inspected and determined safe by property authorities.

Loss or Failure Of Utilities

Failure of any of the utilities (electricity, gas, water) constitutes a condition that must be dealt with on a situational basis. Advance notice may be received from a utility company regarding loss of service. In many cases, such loss of service will be of short duration and require no special action other than notifying staff of the temporary interruption of service.

SITE ADMINISTRATOR:

Notify the site owner. Provide the following information:

Affected areas of the site

Type of problem or outage

Determine length of time service will be interrupted.

Determine desired action, which may include students going home and notification of parents.

If disruption in service will severely hamper school operation, notify students and staff by appropriate means.

Use messengers with oral or written word as an alternate means of faculty notification.

Notify Director of loss of service.

Motor Vehicle Crash

This section applies to a motor vehicle crashing into a building that the school has secured for an event. A motor vehicle crash may result in a fuel or chemical spill at the site. If the crash results in a utility interruption, refer to the section on Utility Failure.

SITE ADMINISTRATOR ACTIONS:

Notify police and fire department (call 911).

Determine immediate response procedures, which may include EVACUATION.

Arrange for first aid treatment and removal of injured occupants from building.

Secure area to prevent unauthorized access until the public safety officials (police, sheriff, fire department) arrive.

Ensure that students and staff remain at a safe distance from the crash.

Account for all building occupants and determine extent of injuries.

Notify Director.

STAFF ACTIONS:

Notify Site Admin

Move students away from immediate vicinity of the crash.

EVACUATE students to a safe assembly area away from the crash scene. Take class roster/nametags and emergency backpack.

Check site to ensure that all students have evacuated.

Take attendance at the assembly area.

Report missing students to the site admin and emergency response personnel.

Maintain control of the students a safe distance from the crash site.

Care for the injured, if any.

Escort students back to the site when emergency response officials have determined it is safe to return to the building.

Pandemic

COVID-19 Prevention Program document is attached at the end of this plan.

Influenza is a highly contagious viral disease. Pandemic influenza differs from both seasonal influenza (flu) and avian influenza in the following aspects:

It is a rare global outbreak that can affect populations around the world.

It is caused by a new influenza virus to which people do not have immunity.

Depending upon the specific virus, it can cause more severe illness than regular flu and can affect young healthy people more so than older, sick people.

The Department of Health and Human Services will take the lead in mobilizing a local response to pandemic influenza. Public health alerts will be reported to schools and the community. Individual schools may be closed temporarily to contain the spread of the virus.

Suspend all in-person events. The following pertains to our virtual school.

SITE ADMINISTRATOR ACTIONS:

Activate heightened surveillance of illness. If requested by a state agency, gather data on symptoms of students and staff who are sick at home.

Provide fact sheets and guidelines for families to make them aware of symptoms and remind them of respiratory hygiene etiquette

Monitor bulletins and alerts from the Department of Health and Human Services.

Keep staff informed of developing issues.

Respond to media inquiries regarding attendance status.

Maintain surveillance after the initial epidemic in the event a second wave passes through the community.

SUICIDE

Intervention, Screening, Referral

Action Plan for Suicide Attempts During-School Hours

If a suicide attempt is made during the school day, it is important to remember that the health and safety of the student and those around him/her is critical. The following steps should be implemented.

Follow the Safety Risk Process, and remember the following:

- Remain calm, remember the student is overwhelmed, confused, and emotionally distressed.
- Call 911 and provide as much information about the student as possible, including the location/address of the student.
- Move all other students out of the immediate area (when in-person for an outing or testing) or remove them from the online classroom.
- Please follow the Safety Risk Process for documentation, communication processes, and follow-up.

Action Plan for After-Hours Suicide Attempts

If a suicide attempt by a student is after hours, it is crucial that the school protects the privacy of the student and maintains a confidential record of the actions taken to intervene, support, and protect the student. The following steps should be implemented:

- Contact the parents/guardians/caregivers and offer support to the family.
- Discuss with the family how they would like the school to respond to the attempt.
- Obtain permission from the parents/guardians to share information with staff.

Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they suspect or have knowledge of another student's emotional distress, suicidal ideation, or attempt.

Board approved Suicide Prevention and Postvention Policy is attached.

SAFETY RISK PROCESS

A safety risk referral is to be completed if any teacher or staff member is concerned a student is at immediate risk of harming themselves or someone else. All concerns must be taken extremely seriously. If there is a concern, do NOT assume that the student's comment (either verbally, in an email and/or in a writing assignment) is only an attention getter or over dramatization.

As a virtual school, we work in partnership with families.

- The parent/guardian should always be notified first unless specific evidence or another compelling reason indicates a risk to the student if the parent is called.
- If possible, ask the student if there is an adult with them, and have the adult come to the phone or screen and share your concerns to ensure the student is supervised.
- Please attempt to reach ALL adult contacts listed (including siblings over the age of 18 and emergency contacts).

Reasonable suspicion of a student's intent to harm him or herself or someone else includes the following.

- Staff eyewitness of person or behavior
- Student's verbal statements
- Student's written statements to include things written in/on their assignments

Process

If staff/teacher is concerned about immediate risk of harm to a student or someone else, take the following steps now.

- Confirm the geographical location of the student.
- Ask the adult to remain with the student.
- Immediately call 911/emergency number for authorities.
- Complete the Safety Risk Referral Survey
- After talking with the local authorities, take the following steps to notify the assigned School Psychologist and document the event:
 1. Document all details of the incident using the Confidential Student Note survey. These may include student writing samples, chat comments, text messages, or details shared via email or conversation. Please do not send any personal student information or details about the situation through email.
 2. After submitting the Confidential Student Note, also save a note in TVS that includes the following information, only:
 - Select the Safety Risk Referral note template
 - Body of Note: Include the date that Safety Risk Referral is being completed and the date the confidential student note was completed.
 3. Reach out to your supervisor for additional guidance if you need help.

The assigned School Psychologist will review the information submitted, follow up with authorities and the family as appropriate, and compile a Safety Risk Report. This Report will be shared with the involved staff members and will include recommendations on the next steps, as needed. The report will be filed with the school office.

SAFETY RISK PROCESS LIVE CLASS CRISIS

If a student is in immediate harm or someone in their home is in immediate harm during a live class session, follow the steps as outlined to call the local authorities and clear all of the other students from the virtual class environment immediately.

These steps should be followed during a Live Class Crisis Event:

1. Immediately call the local authorities
2. Remove all students from the online classroom
3. Complete the online Safety Risk Referral survey

Please review and follow the disciplinary code of conduct as outlined in the Parent Student Handbook as needed. Refer to FERPA policy for any implications to student records.

PROCEDURES FOR PREVENTING OPIOID AND FENTANYL USE AND OVERDOSE

The school's primary goal in the fight against opioids and fentanyl use is prevention.

The school will use the following prevention strategies:

- Creating a supportive, safe, and orderly environment conducive to learning by regularly assessing school climate and using data to develop goals and objectives to address gaps.
- Providing training to staff on building protective factors in students, as well as recognizing the signs and symptoms of use/abuse.
- Responding to a possible overdose while in the virtual setting.

- o Evaluate for signs of an opioid overdose. (unconsciousness and/or lip turning blue)
- o Follow the Safety Risk Process Live Class Crisis process above.
 - When in-person events without parent involvement resume, the school will reconsider training on responding to possible overdose in-person.

STUDENT DEATH

A student's death may be the result of a suicide, homicide, car accident, illness or other causes. It may have a profound effect on the school and may be one of the most difficult situations an administrator will face. A communications strategy developed in advance of such a tragedy will help the administrator know what to say to the student's family and the school community.

Principal/Site Administrator Actions:

- Call 911 (If the death happened at the site)
- Verify the death and obtain as much information about it as possible.
- Contact the student's family or visit the home to offer condolence and support. Obtain information about the funeral/memorial service. Respect their wishes.
- Protect the privacy of the family; the school neither gives nor confirms information to the media or others without consent.
- Notify teachers prior to notification of students.
- Meet with front-line staff/crisis team as soon as possible so that everyone understands the response plan.
- Determine whether additional resources are needed and make appropriate requests.
- Schedule a staff meeting as soon as possible to share the details that are known, review procedures for the day, and discuss the notification of students, availability of support services, and the referral process for students and staff who want or need counseling support and assistance.
 - Develop a plan for notifying other students and sharing information about the availability of support services.
- Prepare a parent/guardian information letter and distribute it to students at the end of the day.
- Contact the parents of those students who are affected by the crisis to determine the appropriate support needed. Offer assistance to parents of impacted students. If necessary, designate areas for crisis team/community resource persons to meet with affected students.
 - Meet with your staff/crisis team to evaluate the response and determine what additional resources might be needed.

Staff Actions:

- Allow students who wish to meet with a counselor.
- Encourage students to report any other students who might need assistance.

STAFF MEMBER DEATH

A staff member's reported death or serious illness in the school community may have a profound effect on students and staff alike.

- Verify the death and obtain as much information about it as possible.
- Protect the privacy of the family; the school neither gives nor confirms information to the media or others without consent.
- Notify teachers prior to notification of students.
- Contact the decedent's family to offer condolence and support. Obtain information about the funeral/memorial service. Respect the wishes of the family.
- Meet with front-line staff/crisis team as soon as possible so that everyone understands the response plan.
- Determine whether additional resources are needed and make appropriate requests.
 - Develop a plan for notifying students and sharing information about the availability of support services.
- Schedule a staff meeting as soon as possible to share the details that are known, review procedures for the day, and discuss the notification of students, availability of support services, and the referral process for staff who want or need support and assistance.
- Facilitate a small group discussion for students.
- Prepare a parent/guardian information letter.
- Continue to monitor staff and students for additional support needs.

BE PREPARED FOR AN ACTIVE SHOOTER

Recent national tragedies remind us that the risk is real. Taking a few steps now can help you react quickly when every second counts.

FEMA

FEMA V-1000/March 2018

An active shooter is an individual engaged in attempting to kill people in a confined space or populated area. Active shooters typically use firearms and have no pattern to their selection of victims.

HOW TO STAY SAFE WHEN AN ACTIVE SHOOTER THREATENS

If you see suspicious activity, let an authority know right away.

Many places, such as houses of worship, workplaces, and schools, have plans in place to help you respond safely. Ask about these plans and get familiar with them. If you participate in an active shooter drill, talk with your family about what you learned and how to apply it to other locations.

When you visit a building such as a shopping mall or healthcare facility, take time to identify two nearby exits. Get in the habit of doing this.

Map out places to hide. In rooms without windows, behind solid doors with locks, under desks, or behind heavy furniture such as large filing cabinets can make good hiding places.

Sign up for active shooter, first aid, and tourniquet training. Learn how to help others by taking FEMA's You Are the Help Until Help Arrives course. Learn more at ready.gov/until-help-arrives.

RUN. Getting away from the shooter or shooters is the top priority. Leave your things behind and run away. If safe to do so, warn others nearby. Call 911 when you are safe. Describe each shooter, their locations, and weapons.

HIDE. If you cannot get away safely, find a place to hide. Get out of the shooter's view and stay very quiet. Silence your electronic devices and make sure they won't vibrate. Lock and block doors, close blinds, and turn off the lights. Do not hide in groups—spread out along walls or hide separately to make it more difficult for the shooter. Try to communicate with police silently—such as through text messages or by putting a sign in an exterior window. Stay in place until law enforcement gives you notice that all immediate danger is clear.

FIGHT. Your last resort when you are in immediate danger is to defend yourself. Commit to your actions and act aggressively to stop the shooter. Ambushing the shooter together with makeshift weapons such as chairs, fire extinguishers, scissors, and books can distract and disarm the shooter.

Keep hands visible and empty.

Know that law enforcement's first task is to end the incident. They may have to pass injured persons along the way.

Follow law enforcement's instructions and evacuate in the direction they tell you to.

Consider seeking professional help for you and your family to cope with the long-term effects of trauma.

BOMB THREAT PROCEDURES

This quick reference checklist is designed to help employees and decision makers of commercial facilities, schools, etc. respond to a bomb threat in an orderly and controlled manner with the first responders and other stakeholders.

Most bomb threats are received by phone. Bomb threats are serious until proven otherwise. Act quickly, but remain calm and obtain information with the checklist on the reverse of this card.

If a bomb threat is received by phone:

1. Remain calm. Keep the caller on the line for as long as possible. DO NOT HANG UP, even if the caller does.
2. Listen carefully. Be polite and show interest.
3. Try to keep the caller talking to learn more information.
4. If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself.
5. If your phone has a display, copy the number and/or letters on the window display.
6. Complete the Bomb Threat Checklist immediately. Write down as much detail as you can remember. Try to get exact words.
7. Immediately upon termination of call, DO NOT HANG UP, but from a different phone, contact authorities immediately with information and await instructions.

If a bomb threat is received by handwritten note:

- Call _____
- Handle note as minimally as possible.

If a bomb threat is received by e-mail:

- Call _____
- Do not delete the message.

Signs of a suspicious package:

- No return address
- Excessive postage
- Stains
- Strange odor
- Strange sounds
- Unexpected delivery
- Poorly handwritten
- Misspelled words
- Incorrect titles
- Foreign postage
- Restrictive notes

* Refer to your local bomb threat emergency response plan for evacuation criteria

DO NOT:

- Use two-way radios or cellular phone. Radio signals have the potential to detonate a bomb.
- Touch or move a suspicious package.

The passage of SB 906 requires that schools provide the following notice.

Safe Storage of Firearms – EC 48986, 49391, 49392; Cal. Civ Code 29805, 1714.3

The purpose of this memorandum is to inform and to remind parents and legal guardians of all students in California Virtual Academy of their responsibility for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from his or her home. **These incidents can be easily prevented by storing firearms in a safe and secure manner, including keeping them locked up when not in use and storing them separately from ammunition.**

To help everyone understand their legal responsibilities, this memorandum spells out California law regarding the storage of firearms. Please take some time to review this memorandum and evaluate your own personal practices to assure that you and your family are in compliance with California law.

With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through grade 12 grade, or to any school-sponsored event, activity, or performance; **or** (3) unlawfully brandishes the firearm to others.

Note: The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.

With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor **never** actually accesses the firearm.

In addition to potential fines and terms of imprisonment, as of Jan. 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.

Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.

Note: your county or city may have additional restrictions regarding the safe storage of firearms.

Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

Suicide Prevention/Postvention

Updated by boards December 2021 (reviewed annually as part of the CSSP)

Information

California Virtual Academies recognizes that suicide is a leading cause of death among youth and that an even greater amount of youth consider (17 percent of high school students) and attempt suicide (over 8 percent of high school students) (Centers for Disease Control and Prevention, 2015).

The possibility of suicide and suicidal ideation requires vigilant attention from our school staff. As a result, we are ethically and legally responsible for providing an appropriate and timely response in preventing suicidal ideation, attempts, and deaths. We also must work to create a safe and nurturing environment. Recognizing that it is the duty of the school to support the health, safety, and welfare of its students, this policy aims to safeguard students and staff against suicide attempts, deaths and other trauma associated with suicide, including ensuring adequate supports for students, staff, and families affected by suicide attempts and loss. As it is known that the emotional wellness of students greatly impacts school attendance and educational success, this policy shall be paired with other policies that support the emotional and behavioral wellness of students.

This policy is based on research and best practices in suicide prevention and has been adopted with the understanding that suicide prevention activities decrease suicide risk, increase help-seeking behavior, identify those at risk of suicide, and decrease suicidal behaviors. Empirical evidence refutes a common belief that talking about suicide can increase risk or "place the idea in someone's mind."

In an attempt to reduce suicidal behavior and its impact on students and families, the Head of School or designee shall develop strategies for suicide prevention, intervention, and postvention, and the identification of the mental health challenges frequently associated with suicidal thinking and behavior. These strategies shall include professional development for all school personnel in all job categories who regularly interact with students or are in a position to recognize the risk factors and warning signs of suicide. The Head of School or designee shall develop and implement preventive strategies and intervention procedures that include the following:

Overall Strategic Plan for Suicide Prevention

The Head of School or designee shall involve all stakeholders in planning, implementing, and evaluating the school's strategies for suicide prevention and intervention. To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, California Virtual Academies will have the Compass Team serve as the suicide prevention point of contact for the school.

Messaging about Suicide Prevention

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, California Virtual Academies has reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide.

Suicide Prevention Training and Education

Training shall be provided for all school staff members.

- All staff shall receive training annually on the risk factors and warning signs of suicide, suicide prevention, intervention, referral, and postvention.
- All suicide prevention trainings shall be offered under the direction of mental health professionals who have received advanced training specific to suicide and may benefit from collaboration with one or more county and/or community mental health agencies. Staff training can be adjusted year-to-year based on previous professional development activities and emerging best practices.

Policy: Suicide Prevention/Postvention

- At a minimum, all staff shall participate in training on the core components of suicide prevention (identification of suicide risk factors and warning signs, prevention, intervention, referral, and postvention) at the beginning of their employment. Previously employed staff members shall attend a minimum of one-hour general suicide prevention training. Core components of the general suicide prevention training shall include:
 - Suicide risk factors, warning signs, and protective factors;
 - How to talk with a student about thoughts of suicide;
 - How to respond appropriately to the youth who has suicidal thoughts;
 - Emphasis on immediately referring (same day) any student who is identified to be at risk of suicide for assessment;
 - Emphasis on reducing stigma associated with mental illness and that early prevention and intervention can drastically reduce the risk of suicide;
 - Reviewing the data annually to look for any patterns or trends of the prevalence or occurrence of suicide ideation, attempts, or death. Data from the California School Climate, Health, and Learning Survey (Cal-SCHLS) should also be analyzed to identify school climate deficits and drive program development.

- In addition to initial orientations to the core components of suicide prevention, ongoing annual staff professional development for all staff should include the following components:
 - The impact of traumatic stress on emotional and mental health;
 - Common misconceptions about suicide;
 - Suicide prevention resources;
 - Appropriate messaging about suicide (correct terminology, safe messaging guidelines);
 - The factors associated with suicide (risk factors, warning signs, protective factors);
 - How to identify youth who may be at risk of suicide;
 - Appropriate ways to interact with a youth who is demonstrating emotional distress or is suicidal. Specifically, how to talk with a student about their thoughts of suicide and (based on district guidelines) how to respond to such thinking; how to talk with a student about thoughts of suicide and appropriately respond and provide support based on district guidelines;
 - School-approved procedures for responding to suicide risk (including multi-tiered systems of support and referrals);
 - School-approved procedures for responding to the aftermath of suicidal behavior (suicidal behavior postvention);
 - Responding after a suicide occurs (suicide postvention);
 - Resources regarding youth suicide prevention;
 - Emphasis on stigma reduction and the fact that early prevention and intervention can drastically reduce the risk of suicide;
 - Emphasis that any student who is identified to be at risk of suicide is to be immediately referred (same day) for assessment by a qualified professional (licensed mental health clinician, physician, crisis response team, law enforcement officer, or other emergency mental health provider)

- The professional development also shall include additional information regarding groups of students judged by the school, and available research, to be at elevated risk for suicide. These groups include, but are not limited to, the following:
 - Youth affected by suicide;
 - Youth with a history of suicide ideation or attempts;
 - Youth with disabilities, mental illness, or substance abuse disorders;
 - Lesbian, gay, bisexual, transgender, or questioning youth;
 - Youth experiencing homelessness or in out-of-home settings, such as foster care;
 - Youth who have suffered traumatic experiences.

Employee Qualifications and Scope of Services

Employees of the California Virtual Academies must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

Specialized Staff Training (Screening)

Additional professional development in suicide risk screening and crisis intervention shall be provided to mental health professionals employed by California Virtual Academies.

Parents, Guardians, and Caregivers Participation and Education

- To the extent possible, parents/guardians/caregivers should be included in all suicide prevention efforts. At a minimum, schools shall share with parents/guardians/caregivers the school's suicide prevention policy and procedures.
- This suicide prevention policy shall be prominently displayed on the school's web page and included in the parent-student handbook.
- Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
- All parents/guardians/caregivers should have access to suicide prevention training that addresses the following:
 - Suicide risk factors, warning signs, and protective factors;
 - How to talk with a student about thoughts of suicide;
 - How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment by a qualified professional (licensed mental health clinician, physician, crisis response team, law enforcement officer, or other emergency mental health provider)

Student Participation and Education

Students shall:

- Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress;
- Receive developmentally appropriate guidance regarding the school's suicide prevention, intervention, and referral procedures.
- Receive student-focused suicide prevention education that can be incorporated into classroom curricula.
- The content of the education shall include:
 - Coping strategies for dealing with stress and trauma;
 - How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others;
 - Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help;
 - Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.

Intervention, Screening, Referral

Action Plan for Suicide Attempt During-School Hours

If a suicide attempt is made during the school day, it is important to remember that the health and safety of the student and those around him/her is critical. The following steps should be implemented. Follow [Safety Risk Process](#) and remember the following:

- Remain calm, remember the student is overwhelmed, confused, and emotionally distressed;
- Call 911 (local authorities based on location of student) and provide as much information about student and your concerns;
- Move all other students out of the immediate area (when in-person for outing or testing) or remove from online classroom;
- Please follow [Safety Risk Process](#) for documentation, communication processes and follow-up.

Action Plan for Suicide Attempt After-School Hours

If a suicide attempt by a student is after hours, it is crucial that the school protects the privacy of the student and maintain a confidential record of the actions taken to intervene, support, and protect the student. The following steps should be implemented:

- Contact the parents/guardians/caregivers and offer support to the family;
- Discuss with the family how they would like the school to respond to the attempt;
- Obtain permission from the parents/guardians to share information with staff;

Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they suspect or have knowledge of another student's emotional distress, suicidal ideation, or attempt.

Parental Notification and Involvement

California Virtual Academies shall establish a process to ensure continuing care for the student identified to be at risk of suicide. The following steps should be followed to ensure continuity of care:

- After Safety Risk Process is followed, administrator shall verify with the parent/guardian/caregiver that follow-up treatment has been accessed. Parents/guardians/caregivers will be required to provide documentation of care for the student.
- If parents/guardians/caregivers refuse or neglect to access treatment for a student who has been identified to be at-risk for suicide or in emotional distress, the administrator will meet with the parents/guardians/caregivers to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of the importance of care.

Re-Entry to School After a Suicide Attempt

A student who threatened or attempted suicide is at a higher risk for suicide in the months following the crisis. Having a streamlined and well-planned re-entry process ensures the safety and wellbeing of students who have previously attempted suicide and reduces the risk of another attempt. An appropriate re-entry process is an important component of suicide prevention. Involving students in planning for their return to school provides them with a sense of control, personal responsibility, and empowerment. California Virtual Academies administration will follow the re-entry process to ensure the student's successful re-integration into the school, or successful transfer to another setting.
